SANATH PUNCHIBANDAGE

CAREER OBJECTIVE

Seeking a position as a Full Stack Developer to provide companies with reliable, scalable, and secure solutions through working knowledge of cloud technologies.

PROFESSIONAL SUMMARY

I have a growing passion for web-development and full-stack solutions, which is evident by the numerous projects I spend my spare time working on. From clones of learning platforms such as Leetcode to AI-chatbots like ChatGPT, I am constantly on the lookout for new and exciting projects to build.

WORK EXPERIENCE

Professional Systems Engineer, DXC Technology

April 2021-Present

- Designing and building digital infrastructure solutions, from databases to full-stack web applications
- Modernising operations and driving innovation for businesses by utilising the power of Cloud Technology, so that my clients can deliver mission-critical services to customers globally

Electric Powertrain Engineer/Business Liaison, MONASH MOTORSPORT

Feb 2017-Nov 2017

- Liaised with external suppliers to negotiate pricing, discuss sponsorship and ordering of parts for the team.
- Successfully conducted energy storage research as needed.
- Played key role in the design of accumulator for e-car using CAD software.
- E-car ranked first place in 2017 Formula SAE competition.

VOLUNTEER EXPERIENCE

Mentor, ROBOGALS AND SPARK ENGINEERING CAMP

Jan 2016-Dec 2016

- Coordinated efforts with other mentors to lead large group of high-school students, aimed at opening avenues for higher education.

OTHER WORK EXPERIENCE

Private Tutor, Transcend Education – Jan 2015 - Dec 2020

Fill/Tech Associate, Duty Manager, Big W (Pakenham) – Nov 2016-Mar 2021

Work Experience, Spotlight (Fountain Gate) – Mar 2012

PROFESSIONAL CERTIFICATION

AWS CERTIFIED SOLUTIONS ARCHITECT – ASSOCIATE

Issued Jul 2021 · Expires Jul 2024

- Earners of this certification have a comprehensive understanding of AWS services and technologies.
- They demonstrated the ability to build secure and robust solutions using architectural design principles based on customer requirements.
- Badge owners are able to strategically design well-architected distributed systems that are scalable, resilient, efficient, and fault-tolerant.

PROJECTS

- Leetcode Clone
- ChatGPT Clone
- Amazon Clone
- Airbnb Clone
